Desert Island Discs

It's a famous British radio show!

It started in 1942, so it's over 75 years old!

More than 3,000 episodes have been recorded!

Each week there's a new guest called a "castaway". The castaway is asked to choose **music**, a **book** and a **luxury item** that they would take if they were to be cast away on a desert island.

Rules

Choose a piece of **music** to bring

Choose a **book** to bring (you automatically already have the Complete Works of Shakespeare + the Bible or another religious book of your choice)

Choose a **luxury item** (it can't be alive, not useful to escape and not for communication)

"If I were a castaway, I would bring..."
